Iguana Circo Freestanding

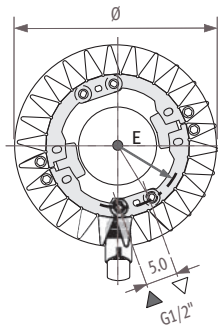

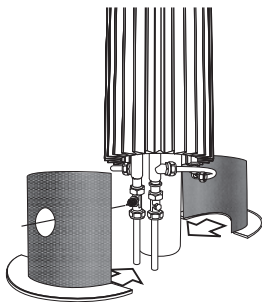

Iguana Circo Freestanding Dimensions

CIRF_Circo Freestanding

Metal suspension column included

Position flow and return pipe

Standard delivery:
guard and connection set with thermostatic valve and lockshield included.
Sleeve couplings for Connection sets with guard see page 209.

Dimensions in cm

Ø	27.8	31.3	34.8
E	7.5	9.4	11.3

Connections

Two pipe

Standard connection Code MM

Please note:
With the guard the standard flow is on the left. If a right hand flow is required please amend the code suffix using MM/CR

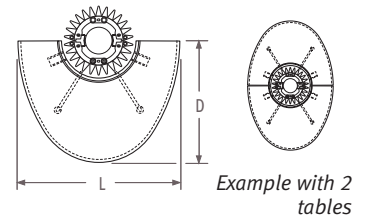

Notice

To guarantee the output of the Iguana models and to limit the pressure drop, Jaga recommends the use of tube diameter 16/2, 18/1 or 18/2.

Outputs

Standard delivery:

- Iguana Circo in 2 parts, to be mounted around the suspension column, incl. all pieces for hydraulic connection
- support with suspension column and guards with opening for the valve head
- thermostatic valve 5094.430
- lockshield 5094.431
- 4 chrome-plated air vents G 1/8"
- sleeve couplings: see Connection sets & Valves

Standard colours:

- sandblast grey metallic 001
- white 301(RAL 9010 satin)
- white 333(RAL 9016 satin)

Connections

Two pipe

Standard connection

Code MM

Top end connection

Code 45 or 54

(1° number > flow)

When ordering a top end connection, no insert pipe should be ordered. Air vents should be positioned on the central heating pipes.

Ordering code: specify code 45 or 54 instead if MM, no surcharge.

One pipe connection

The standard radiator can be connected to a one pipe system with connection sets 41 or 42. With a maximum of 2 radiators per heating ring.

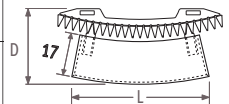

Notice

To guarantee the output of the Iguana models and to limit the pressure drop, Jaga recommends the use of tube diameter 16/2, 18/1 or 18/2.
