## Operating principal

## Installation

The Mini Canal is completely mounted and ready for use. Suitable for installation onto rough concrete subfloors, in floating or suspended floors, or even into existing trenches.

## Installation

- Position level on the finished floor by means of anchoring irons or optional height control.
- Lead through the conduits and close the leadthrough openings.
- If necessary, provide an extra pipe for the thermostat head with remote control.
- Test the pressure of the installation.
- Finish the floor.

## Connection

There are several ways to connect the heat exchanger.

- With the central control collector. Temperature regulators via room thermostat (no valve in the duct).
- With manual valve in the duct.
- With thermostatic valve in the duct: in this case it is best to provide a head with remote control outside the duct. Control is simple and the thermostat will provide better measurement of the ambient temperature.

## With flexible connections

Compose the Mini Canal from the list of parts, the heat exchanger should be taken at least one size shorter. In this way you will gain sufficient space for flexible connections and it will be easy to remove the heat exchanger from the duct, for example for annual cleaning.

# Mini Canal Connections

## Example with remote controlled head

Suitable for width 26 cm and wider.

## Maximum space for connection

With same end connection. Height 09 and 11.

With same end connection. Height 14 and 19.

With other end connection. Height/Width 09/14 and 11/14.

## Height 09 and 11

Connection dimensions

Detailed Info for duct heights H 09 and H 11: see Connection set 71 page 168.

## Hoogte 14 en 19

Connection dimensions

Detailed Info for duct heights H 14 and H 19: see Connection set 72 page 168, or Jaga Danfoss valve, page 176

## Product summary

⚠ Building in-opening: height H + 1 cm!

## Mini Canal\_Options

### Cover plate

In fibreboard, thickness 22 mm. Protects the duct against contamination and damaging during construction works.

Price: fixed surcharge + price/metre	
CODE	B
COVP.000LLL14	14
COVP.000LLL18	18
COVP.000LLL26	26
COVP.000LLL34	34
COVP.000LLL42	42

Fill in length Mini Canal in cm.

### Cover strip

For aluminium and wood grilles. Black adhesive rubber strip, thickness 1 mm.

To hide the bottom edge of the frame and to avoid contact noises. Order the number of rolls required according to circumference of the frame (width plus length) x 2.

CODE	
7690.02	Roll 6 metre

### Different length

Use the standard code and fill in the desired length in cm. Price: the price of the next standard linear measurement of the desired length and a fixed surcharge.

CODE	
7696.03	fixed surcharge

### Bottom end insulation

(Not separately deliverable!)

In dark grey polyethylene foam, thickness 5 mm. Also to avoid transfer of noise when used on upper storeys.

Price: fixed surcharge + price/metre

7693.019LLL34	019	34
7693.019LLL42	019	42

Fill in length Mini Canal in cm.

### Height control

Simple height control for uneven sub-floors.

CODE	
7690.01	height control 0 - 4.5 cm
7690.04	height control 4.5 - 13 cm

Advized numbers for length:

1 set =	110 > 120 cm	2 sets
	130 > 190 cm	3 sets
	210 cm	4 sets
	230 > 310 cm	5 sets
	330 > 390 cm	7 sets
	410 cm	8 sets
	430 > 490 cm	10 sets

The height control option is always provided with extra adjusting screws in order to install the duct flat against the windowframe.

# Mini Canal\_Options

## Corners 135° or 90° for wooden and aluminium grilles

To order corner elements, add to the code of Mini Canal the desired corner (see code of the corner on drawing bellow).

Delivery: ducts and grilles with mitre joints + connecting pieces for invisible mounting.

If possible, use standard lengths to avoid extra price for custom made work. You will find the outputs for the corresponding length in the tables.

If possible, please include a drawing with the order.
